Mosquito Control Program:

Information Session: Wednesday January 25th, 2023 @7:00 PM
CDC Boardroom, Callbeck Center, Central Bedeque, P.E.I.

All residents living in the boundaries of Central Bedeque and the Village of Bedeque are cordially invited to attend an Information Session on Wednesday January 25th, 2023 to discuss the future of the Rural Municipality of Bedeque and Area Mosquito Control Program.

We have invited Shawn Schofield from the Province of P.E.I. Department of Environment to outline various aspects of Mosquito Control. It is hoped that Shawn will enlighten everyone on what works and what doesn't work to control these pesky insects, and the common practices for controlling mosquitoes.

It is strongly recommended that you attend this upcoming meeting to have your input and provide feedback to all Council Members in determining the future of this Program.

Thank You.

Mayor Matthew Bowness, Councillors: Rural Municipality of Bedeque and Area
